JUSTIN PHAM

Software Engineer Student

Calgary, Alberta
(825)-712-1219
justin.phamx4@gmail.com

Courses

Object Oriented Programming, Probability Statistics and Machine Learning, Data Structures and Algorithms, Database Systems, Full Stack Web Development, Software Project Management

EDUCATION

Bachelor of Software Engineering - University of Calgary
Expected graduation May 2025

TECHNICAL SKILLS

Python - C/C++ - Java - MySQL - Git/Github - NextJS - AWS - Figma - Firebase - TailwindCSS

TECHNICAL PROJECTS - View them on my personal website!

Solar Car Telemetry Site   October 2022 - Present

● Collaborated with 9 other students to build a telemetry website for solar-powered vehicles using React and MongoDB.
● Developed the front-end user interface and layout of the website using Tailwind.
● Used organizational tools such as Github, Figma, Jira, and Liveshare to manage the project.

TheCookBook   August 2023

● Developed "theCookBook," a feature-rich online recipe application that allows users to create, save, and manage their favorite recipes.
● Leveraged a modern tech stack to provide an intuitive and user-friendly cooking experience, making it easier for users to discover, create, and enjoy their culinary creations.

WORK EXPERIENCE

Coding Instructor - *Code Ninjas*   June 2023 - September 2023

● Delivered engaging coding lessons to students, focusing on building a strong foundation in programming languages.
● Fostered a supportive learning environment, helping students overcome coding challenges and promoting creativity in their projects.
● Collaborated with fellow coding instructors to create and implement a comprehensive curriculum for coding education.

Pharmacy Assistant - *Remedy's RX*   April 2018 - September 2022

● Manage and maintain inventory for medicinal and storage supplies with a high degree of accuracy, ensuring that medications are properly stocked and organized for efficient dispensing.
● Provide exceptional customer service by communicating effectively with customers, addressing their concerns and questions, and assisting them with their medication needs.
● Safeguard patient privacy by handling and disposing of sensitive patient information in compliance with regulations.
● Collaborate with pharmacists and other healthcare professionals to ensure that medications are dispensed safely and accurately, and that patients receive the appropriate dosage and instructions for use.
